

Vapro VBCI 103 FrictionGard

VBCI Clear Wirerope Lubricant

NATO STOCK NUMBER: PENDING

Description

Vapro VBCI FrictionGard is a clear viscous wire rope lubricant fortified with E.P. Agents & proprietary corrosion inhibitors. The clarity of the lubricant allows ease of inspection of wire ropes. It is blended with special refine white oils, E.P. and anti-wear agents for heavy-duty work.

Vapro VBCI FrictionGard does contain any solvents and will not dry, harden or evaporate. It provides long term lubrication to both the core and external parts of the wire ropes. It's enhanced tackifier properties ensure good adhesion to the wire rope.

Features & Benefits

- Contains enhanced tackifier : It ensures good adhesion to wire rope.
- Excellent Penetrating properties: It allows fast and deep penetration into the wire core.
- Fortified with VBCI: It offers excellent protection against corrosion.
- Contains anti-oxidant agent : Retards the oxidation process of the chemical changes of lubricant.
- Contains stabilizing agent : It assures stability of the lubricant.
- Contains excellent Extreme Pressure agent : It contains high performance E.P. & Anti-wear additives for superior lubrication.
- Water resistant : It provides excellent water resistance.

Applications And Area Of Use

- Wire ropes exposed to heavy mechanical stresses. e.g. steel works, mining and chemical industry.
- Protection and lubrication of wire ropes of all types. e.g. cranes and diggers, elevators and hoisting equipment.
- Ideal for wet high-speed operations.

Available Packaging

20 liters pail or 200 liters drum

Specifications

Appearance
Grease

Colour
Light amber

Specific Gravity
0.9

NLGI Grade
2

Pour Point
Not available

Drop Point
200 °C

Flash Point
> 200 °C

Temperature Range
-36 °C to 60 °C

Rust Resistance ASTM D665
Pass
