Vapro VBCI-818 CLP

Uncompromised Protection with Cutting-edge Green Technology

Presenting **Vapro VBCI-818 CLP** — the next generation in gun maintenance solutions, seamlessly merging high-performance standards with environmentally responsible technology. This revolutionary product stands as the only solution certified by the **USDA as biobased**, fully compliant with **MIL-PRF-63460D and MIL-C-372 standards** and recognised globally in the **NATO Master Cross Reference List (MCRL)** with the prestigious **NATO Stock Number 9150-32-083-8144**.

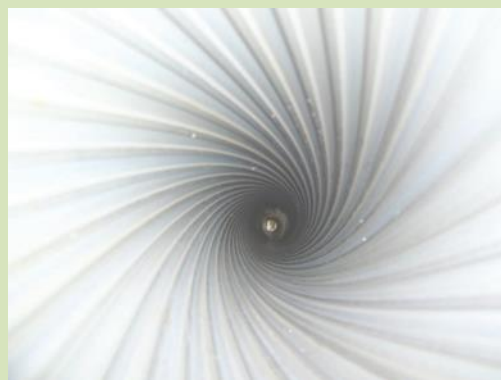

Gone are the days of harsh, greasy chemicals in the armoury. **Vapro VBCI-818 CLP** raises the bar, providing a clean, non-greasy, triple-action solution that cleans, lubricates, and passivates metal surfaces for lasting corrosion protection. Designed with the end user in mind, it optimises weapon readiness while minimising maintenance complexity — offering a solution that's as effortless to use as it is effective.

Product Highlights

- **USDA Biobased Certification & NATO Registration:** Globally recognised for sustainability and meeting the strict demands of military-grade performance, trusted by armed forces around the world.
- **Unmatched MIL-SPEC Compliance:** Exceeds the rigorous **MIL-PRF-63460D** and **MIL-C-372** specifications, ensuring unparalleled reliability and effectiveness.
- **Triple-Action, One-Step Protection:** Delivers cleaning, rust removal, and protective passivation in a single step, reducing the need for multiple products.
- **Residue-Free and Non-Greasy:** Leaves no oily residues, allowing for immediate operational readiness without requiring extra cleanup.

Achieve Superior Military Readiness with Eco-Conscious Innovation

Designed for versatility across various weapon platforms, **Vapro VBCI-818 CLP** is tailored to small arms, automatic weapons, heavy artillery, and naval and aircraft weapon systems. Engineered to offer dependable pre- and post-firing maintenance, it effortlessly penetrates recessed areas with **vapour-borne corrosion inhibitors**, ensuring comprehensive coverage and long-lasting protection. By conforming to NATO and MIL-SPEC standards, Vapro VBCI-818 CLP is a military-grade solution that combines elite performance with eco-conscious principles.

Key Features and Benefits

- **USDA Certified Biobased & NATO Compliant:** The gold standard in eco-friendly protection, engineered to meet stringent global military requirements.
- **Advanced Triple-Action Formula:** Simplifies maintenance with a one-step solution that cleans, protects, and passivates weapon systems.
- **Reduces Chemical Consumption:** Replaces multiple maintenance agents, optimising inventory and reducing overall chemical usage.
- **Temporary Anti-Corrosion Shield:** Forms a robust protective barrier against corrosion that lasts for several weeks, ensuring consistent readiness.
- **Efficient VBCI Vapour Migration:** Vapour-phase corrosion inhibitors provide deep, reliable protection even in hard-to-reach crevices, critical for modern weapon systems.
- **Economical and Environmentally Friendly:** Reduces both maintenance costs and environmental impact, setting a new standard for sustainable readiness.

Cleaning and preparation of 0.5 calibre Browning with Vapro VBCI-818 CLP before preservation

Cleaning of GPMG (General Purpose Machine Gun) with Vapro VBCI-818 CLP.

Cleaning and preservation of M16s using Vapro VBCI-818 CLP.

A preserved 0.5 mm Browning M2 Machine Gun after cleaning with Vapro VBCI-818 CLP.

Vapro VBCI-818 CLP

Applications

Perfect for a wide range of defence and industrial applications, Vapro VBCI-818 CLP is the ideal choice for:

- **Small Arms and Automatic Weapons:** Ensures swift, effective cleaning with lasting corrosion protection.
- **Heavy Artillery:** Ideal for maintaining barrels of howitzers, tank guns, and large-calibre artillery.
- **Naval and Aircraft Weapons:** Provides robust protection in challenging environments, maintaining reliability and longevity in maritime and aerial conditions.

Specifications

- **Appearance:** Clear, transparent, free-flowing liquid
- **Colour:** Amber Brown
- **Flash Point:** 80°C
- **Specific Gravity:** 0.796

The Pinnacle of Green Weapon Care Technology

With **Vapro VBCI-818 CLP**, you are choosing a product that epitomises both top-tier military standards and sustainability. Listed in the NATO Master Cross Reference List, this biobased cleaner, lubricant, and corrosion inhibitor is the embodiment of modern, responsible defence technology. Experience effortless maintenance, streamlined readiness, and a commitment to green technology with **Vapro VBCI-818 CLP** — the ultimate solution for effective, eco-friendly weapon care that truly performs.

Packaging

20 liters per pail or 200 liters per drum
