

ECO FRIENDLY
SUSTAINABLE
BIODEGRADABLE

VBCI Series- A class of environmentally friendly corrosion inhibitors for a cleaner, greener, better tomorrow.

Vapro VBCI-851 Fuel-Cor

VBCI Fuel Additive

Directive 2002/95/EC

Passed German VIA (Vapour Inhibition Ability) Test TL 8135-002

NATO STOCK NUMBER: 6850-32-076-1132

Sludge Dispersant And Combustion Improver

Description

Vapro VBCI-851 Fuel-Cor is a premium quality blend of solvents, dispersant detergents, and fortified with VBCI for minimizing the effects of fuel instability, that causes corrosion in fuel-system.

Vapro VBCI-851 Fuel-Cor is an Amber free flowing compound developed to dissolve sludge, prevent fuel stratification in fuel tank and protection of fuel-system from corrosion.

It cleans and keeps the active fuel system clean and reduces black smoke by improving combustion.

Features

- Keeps fuel-system free from corrosion
- Reduces black smoke
- Dissolves sludge formed during storage
- Disperses existing agglomerates in the fuel as very fine particles and prevents stratification
- Prevents blocking of filters and keeps fuel injectors clean
- Prevents asphaltic matter in the fuel from agglomerating and so limits formation of deposits in tank bottoms and transfer lines
- Extends periods between overhauls of injection system
- Improves fuel oil stability
- Reduces unburnt particles
- Does not require elaborate dosing equipment

Applications

- Dissolution of sludge
- Dispersion of asphaltene particles
- Combustion Improver
- Cleaning of fuel system
- Keeps the entire fuel system clean
- Protects fuel system from corrosion

Directions for Use

Vapro VBCI-851 Fuel-Cor is to be introduced into the storage tank before bunkering or to be added into fuel tank prior to refilling of fuel.

Dosage – 0.15% to 0.2% by volume.

Available Packaging

20 Litres & 200 Litres drum

Specifications

Appearance

Amber free flowing liquid

Viscosity

Free Flowing

Density 15°C

0.795± 0.5

Flash Point

47°C (ASTM D56-05)

Odour

Bland
