**VBCI Series-** A class of environmentally friendly corrosion inhibitors for a cleaner, greener, better tomorrow.

# Vapro VBCI-800

## Multipurpose Cleaner/Degreaser

**Passed German VIA (Vapour Inhibition Ability) Test TL 8135-002**

**NATO STOCK NUMBER: 6850-32-076-1080**

### Description

Vapro VBCI-800 is a water-based heavy-duty multi-purpose cleaner/degreaser. It is specially formulated using powerful detergents, emulsifiers, wetting agents and Vapour Corrosion Inhibitor to meet the requirements for cleaning heavy vehicles and provides temporary corrosion protection.

This product will clean and dissolve grease, oils, road film, insect residues, smoke and soot, and similar types of accumulated debris from automobiles, large and small transport trucks, trailers, buses, taxis, boats, mobile homes, recreational vehicles, planes and farm equipment. When used with pressure washing equipment, this product provides effortless cleaning, rapid penetration through layers of build-up, and streak-free rinsing from surfaces.

This compound safely cleans road film from expensive automotive finishes without diluting the luster. The product is safe enough to be used on glass, aluminium and most types of painted and finished metallic surfaces. An added safety feature of this compound is that it will not damage, dry or crack rubber and plastic mouldings around windows and doors.

This product is so versatile that it may be used by a wide variety of industrial and institutional facilities such as truck fleets, auto and truck rental agencies, bus garages, commercial car washes, new and used car dealers, equipment rental companies, military equipment, military vehicles, mobile homes and recreational vehicle dealers, vehicle maintenance shops and aircraft maintenance shops. While most cleaning compounds available on the market today are simply blends of surfactants and detergents, Vapro VBCI-800 offers improved cleaning plus corrosion protection action. Cleaned surfaces dry bright and shiny, with no need to wipe or polish surfaces.

### Features & Benefits

- Heavy-duty chemical cleaner and degreaser with unique cleaning action through solubilization of hydrocarbon deposits.
- Inhibitor against corrosion attack on metals, leaves temporary protective coating.
- Provides excellent cleaning action at low temperatures.

## Typical Properties

Colour  
Yellow

Clarity  
Clear

Viscosity  
Slight

pH  
13 ±0.5

Specific Gravity  
1.04 ±0.05

Shelf Life  
2 Years in sealed container

Flash Point  
Non-flammable

## Directions for Use

Dilution ratios vary according to degree of soil, type of soil to be removed, amount of sudsing desired and temperature and amount of pressure available with equipment.

Some suggested dilution is as follows:

- Heavy accumulations  
1:30 with water
- Cars, Taxis, Light Soils  
1:50 with water
- Boats, Mobile Homes,  
1:80 with water
- Recreational Vehicles

## Available Packaging

20 liter HPDE Pail or 200 liters Steel Drum
